SJK(T) Ladang Semenyih bags award

SJK(T) Ladang Semenyih has won the silver award in the National Eco Schools Programme for its measures to reduce waste and conserve energy, *Malaysia Nanban* reported.

The programme promotes environment conservation and preservation in schools.

Pupils from the school, with the help of Dr Sarva Mangala Praveena from Universiti Putra Malaysia, presented the practices they adopted to protect the environment.

Headmaster S. Raju said the school bagged the silver after an evaluation was held in Melaka.

Raju thanked Dr Sarva for helping the school to achieve success in the programme.

“This competition will give the pupils the drive and the confidence needed to emerge as leaders in protecting the environment,”

said Raju.
